Meringandan takes its name from its Indigenous origins – fire and clay. Our vision connects with our history and reflects our aspirations to ignite learning in each and every student. We believe that effective pedagogy is the shaping force that will ensure our students lead an informed, active, happy and successful future.

Our school values shape the expectations for all members of the school community, across all contexts, and are the foundation for our School Wide Positive Behaviour Program and Expectations Matrix. At Meringandan, we value an environment that challenges and supports students to:

- Be respectful
- Enjoy learning
- Stay safe and be
- Totally responsible

To ignite learning so that each and every child can be their BEST, we believe that current informed and research based principles are central to effective pedagogy. In shaping the BEST future together, our pedagogical principles will ensure our approach to teaching and learning is informed by validated and proven teacher practices. Our pedagogical principles are:

- Student centred
- High expectations
- Aligned practices
- Purposeful learning
- Effective relationships

The principles that SHAPE our pedagogical framework reflect our beliefs about effective practice. The process guiding the development of the framework was facilitated through workshops that focussed on exploring best practice through research, professional discussion and peer review.

<tr>
<td>For differentiation to be effective, teachers need to know, for each student, where that student begins and where he or she is in his or her journey towards meeting the success criteria of the lesson.” (Hattie 2012)</td>
<td>&quot;High expectations&quot; is both a belief about student capability and specific actions undertaken to make those beliefs a reality. Teachers who demonstrate the highest expectations show their students that they expect rigorous, challenging, high quality work. (EPI – research into practice) (Ronald Williamson, Eastern Michigan University, August 2012).</td>
<td>&quot;Information from achievement data is ideally the foundation of constructive, collective decisions regarding issues such as goals, curricular, unit plans, programs, policies, and planning for prevention and intervention systems.” (Blankenstein 2008)</td>
<td>&quot;When learning is purposeful, creativity blossoms. When creativity blossoms, thinking emanates, knowledge is fully lit.” (APJ Abdul Kalam.)</td>
<td>&quot;Nothing motivates a child more than when learning is valued by schools and families (and) communities working together in partnership. ... These forms of involvement do not happen by accident or even by invitation. They happen by explicit strategic intervention. (Fullan 1997)</td>
</tr>

At Meringandan State School, we believe that student centred learning occurs when students are placed at the centre of both classroom planning and instruction. Effective teaching can therefore take place through informed decisions based on knowledge of students’ backgrounds, experiences, culture and prior knowledge. The appropriate placement and grouping of students at their instructional level will ensure students’ learning and “create new horizons for success”.

At Meringandan State School, we believe that successful teaching and learning depends on closely aligned practices. For maximum impact on student learning it is important to align student needs curriculum intent, pedagogy, assessment and reporting.

At Meringandan State School, we believe that the role of the teacher is to combine curriculum knowledge and understanding of the learner with effective teaching strategies to enable purposeful learning. All interactions, experiences, activities, routines and events, planned and unplanned, that occur in an environment are designed to foster children’s learning and development. The quality of teaching is critical to the process of learning. Successful learners are creative and productive users of technology moving easily between their personal learning environments and networking spaces to improve their knowledge, capabilities and understandings of our ever changing world.

At Meringandan State School, we believe that learning connects strongly with communities and practices beyond the classroom. Intellectual, social and emotional needs are fostered and supported through trust, care, respect and valuing individual differences. Students are encouraged to apply their learning to make positive contributions to the wider community. School and classroom expectations are modelled through explicit instruction and the students’ successes are regularly celebrated.

At Meringandan, teachers measure students’ prior learning and consider how and what students understand by:

- Making frequent evidence-based decisions to guide planning.
- Using relevant and research-based strategies to engage and support student learning.
- Differentiating teaching practices, strategies, tools and resources to address learning needs.
- Providing appropriate and responsive feedback to improve learning.

At Meringandan, teachers set specific and challenging goals where the challenge is relative to each student’s current performance (Hattie) by:

- Explicitly modelling and teaching expectations of student learning, bookwork and behaviour. (Covey)
- Clearly defining procedures for learning, induction, coaching, mentoring and support.
- Clearly communicating learning intent and success criteria.

At Meringandan, teachers align the curriculum intent, demands of the learning, general capabilities and assessment by:

- Rigorous, consistent and validated approaches to monitoring and data collection to inform teaching and learning.
- Adopting a whole school approach to monitoring and data collection to measure the effect of teaching on student progression.
- Using data gathered from a variety of formative and summative assessment that is ongoing, regular and scheduled.

At Meringandan, teachers use current research and other forms of professional inquiry to deepen teacher knowledge and build expertise to create positive effects on all students by:

- Using a range of tools and strategies that incorporate digital and higher order thinking through the Symphony of Teaching and Learning (SoTaL).
- Promoting the purposeful, aligned, responsible and ethical use of a range of digital technologies and tools.
- Negotiating learning goals and targets for each and every student that are closely monitored to inform the teaching and learning cycle.
- Ensuring assessment and learning goals are upfront and clear followed by an explicit progressive lesson structure that allows introduction, elaboration, practice, summary and review.

At Meringandan, teachers deliberately develop effective teacher-student and community relationships to engage, connect and support student learning by:

- Fostering trust, care and respect through valuing individual differences.
- Establishing and explicitly teaching consistent behaviour expectations, effective routines and procedures.
- Addressing the social, emotional and intellectual needs of each and every student.
- Connecting with parents and the community regularly in meaningful contexts.
- Embedding inclusive practices that address the needs of all students.

**Curriculum Intent**
- Use a school based template for front ending assessment including the planning of warm ups, to ensure prerequisite skills, processes and concepts are taught prior to assessment.
- Use the criteria and standards of the Australian Curriculum through the Curriculum into the Classroom (C2C) resource.
- Use our Curriculum Framework which establishes the expectation to deliver quality curriculum.

**Assessment**
- Front end assessment with curriculum intent
- Have explicit criteria and standards expressed as clear statements of high quality performance.
- Gather and respond to evidence of learning throughout the teaching and learning cycle.

**Sequencing teaching and learning**
- Adopt a range of pedagogical practices and tools that reflect the content of the curriculum.
- Have a consistent whole school approach to lesson design and delivery.
- Use C2C as a resource alongside of our School Curriculum Programs and Units.
- Use School Spelling, Mathematics and Reading Programs to support and guide teachers in best practice.
- Use ICT checklists.

**Shaping learning with effective and explicit classroom instruction through implementing the explicit teaching lesson structure.**
- Planning and teaching purposeful ‘warm ups’ that are embedded in practices to improve identified learning needs.
- Implementing the Symphony of Teaching and Learning strategies (SoTaL) incorporating the effective use of digital technologies and higher order thinking.

**Explicit Instruction**
- Use School Wide Positive Behaviour System (SWPBS) program to facilitate a focussed and effective approach to learning.
- Use the School Wide Positive Behaviour System (SWPBS) program to facilitate a focussed and effective approach to learning.
- Use the School Wide Positive Behaviour System (SWPBS) program to facilitate a focussed and effective approach to learning.
- Use the School Wide Positive Behaviour System (SWPBS) program to facilitate a focussed and effective approach to learning.

**Dimensions of teaching and learning**
- Use the dimensions of teaching and learning to support the development of student thinking skills and strategies.
- Use the dimensions of teaching and learning to support the development of student thinking skills and strategies.
- Use the dimensions of teaching and learning to support the development of student thinking skills and strategies.
- Use the dimensions of teaching and learning to support the development of student thinking skills and strategies.

**Teacher Expectations Handbook**
- Use the criteria and standards of the Australian Curriculum through the Curriculum into the Classroom (C2C) resource.
- Use our Curriculum Framework which establishes the expectation to deliver quality curriculum.
- Use our Curriculum Framework which establishes the expectation to deliver quality curriculum.
- Use our Curriculum Framework which establishes the expectation to deliver quality curriculum.

**Assessment, Reporting, Monitoring and Moderation Plan**
- Use the criteria and standards of the Australian Curriculum through the Curriculum into the Classroom (C2C) resource.
- Use our Curriculum Framework which establishes the expectation to deliver quality curriculum.
- Use our Curriculum Framework which establishes the expectation to deliver quality curriculum.
- Use our Curriculum Framework which establishes the expectation to deliver quality curriculum.

**Clearly define and follow the processes for enrolment and new student induction.**
- Use the criteria and standards of the Australian Curriculum through the Curriculum into the Classroom (C2C) resource.
- Use our Curriculum Framework which establishes the expectation to deliver quality curriculum.
- Use our Curriculum Framework which establishes the expectation to deliver quality curriculum.
- Use our Curriculum Framework which establishes the expectation to deliver quality curriculum.

**Showcase and celebrate our successes regularly with our community.**
- Use the criteria and standards of the Australian Curriculum through the Curriculum into the Classroom (C2C) resource.
- Use our Curriculum Framework which establishes the expectation to deliver quality curriculum.
- Use our Curriculum Framework which establishes the expectation to deliver quality curriculum.
- Use our Curriculum Framework which establishes the expectation to deliver quality curriculum.
